Career & Leadership

Finding funding
Career for researchers, teachers and leaders

Here you will find an overview of support that may be helpful in your teaching and research career. The model below is based on the Euraxess Reflex-model.

- **Career development** – support to develop in your current role, planning a career, job search or promotion.

- **Continuing professional development** – support for professional development in leadership, educational skills, academic writing, academic publishing, etc.

- **Mobility** – support to stimulate international exchange and increase mobility between higher education institutions, language courses and the reception of foreign researchers.

- **Networking** – exchange of experience and information in order to develop professional and social contacts

- **Company and organisational interaction** – support for commercialization and external cooperation.
