# Digitalisation of research

- New tools for collecting, generating and analyzing data
- New forms of data, increasing in size and complexity
- New ways of collaborating and sharing results - publications, data, workflows, protocols, code etc.
- New possibilities - but also new challenges

# Expectations from stakeholders on how data should be managed

## Stakeholders

- Research group
- Research Community
- Publishers
- University / Host Institution
- External collaborators
- Funders
- Human research subjects
- General public / Society
