The Virtual Research Support Office

How to prepare a successful proposal

- Start preparing early
- Get familiar with:
 - Work Programmes (calls and policy background)
 - Proposal templates
 - EU Funding and Tenders Portal
- Build and maintain your network
- Get support

Eligibility

Consortium composition (collaborative projects)

- Minimum three partners (organisations) from three countries
- at least one independent legal entity established in an EU Member State, and
- at least two other independent legal entities each established either in a different Member State or an Associated Country.

Gender Equality Plan (applicable only from 2022 on)

- Yes, UU has a GEP

Activities eligible for funding – Type of actions

Research and
innovation
action (RIA)

Activities to establish new knowledge or to explore the feasibility of a new or improved technology, product, process, service or solution.

Innovation
action (IA)

Activities to produce plans and arrangements or designs for new, altered or improved products, processes or services.

Coordination
and support
actions (CSA)

Activities that contribute to the objectives of Horizon Europe. This excludes R&I activities.

Maximum funding rate 100% (25% OH)

Admissibility

- Applications must be submitted before the call deadline, **electronically** via the Funding & Tenders Portal

Proposal page limit

- RIA and IA actions: limit for a full application is **45 pages**
- CSAs: limit is **30 pages**
- First stage proposals: limit is **10 pages**
- EIC Pathfinder: limit is **17 pages**

Application form (proposal template)

The proposal contains two parts:

- **Part A** (web-based forms) It is based on the information entered in the Funding & Tenders Portal.
 - Role of participating organization
 - Ethics self-assessment
- **Part B** is the narrative part that includes three sections that each correspond to an evaluation criterion. **Excellence – Impact - Implementation**

Keys to success

Your proposed work must be within the **scope** of a work programme **topic**

You need to demonstrate that your idea is **ambitious** and goes **beyond the state of the art**

Your scientific methodology must take into account **interdisciplinary, gender dimension and open science practices.**

You should show how your project could contribute to the **outcomes** and **impacts** described in the work programme (the pathway to impact)

You should describe the planned measures to maximise the impact of your project (**plan for the dissemination and exploitation** including **communication** activities)

You should demonstrate the quality of your work plan, resources and participants
