UNIVERSITET

Grants Days 2021

24 November 2021

Anna-Sara Lind

UPPSALA
UNIVERSITET

Coming from where?

- Law
 - But to stay in Uppsala?
- LL.D.
- And after that?
 - To choose and to listen to advice?
 - To be kind to oneself
 - To say yes
 - To be generous and be impressed

UPPSALA
UNIVERSITET

All encounters are good encounters!

All applications have a purpose – or several

To try and to dare new collaborations and search for new encounters in and beyond research. And beyond myself...

- 1) Impact of Religion – challenges for society, law and democracy (VR)
- 2) Biobanks (EU)
- 3) HERA (EU, VR)
- 4) Citizenship (CIRCUS at the start)
- 5) AI, democracy and human dignity (Wallenberg foundations)

UPPSALA
UNIVERSITET

A list of lessons learned – or more is more

- Bottom-up and top-down – to live and create within our University
- Multidisciplinary research – problem oriented research
- Time is a factor
- The people involved
- The disciplines involved
- Pluralism in all aspects
- Never stop writing
- Generosity is a key:
 - Not to be too hard on oneself
 - Always curious on others and generous in relation to others

UPPSALA
UNIVERSITET

And now.....

- I. To create more multi-disciplinarity and quality in research
- II. Finding new opportunities to finance and have research in the future – for others
- III. More collaboration (in all senses!) are needed! And humanities and social sciences can contribute a lot...
- IV. For myself: try to find new arenas for learning more and new things
